Hi Scott – Would you please put pdf copies of each signed letter into the PCB folder?  
Thanks.

Hi Stacie, as discussed, attached are the New Source addresses that I received from PADEP for the beneficial use NONs. They were unable to provide addresses for a couple of the generators, and not all of them have an actual contact name, so I don't know if we just want to address these to "to whom it may concern"....Also, some of the generator addresses they provided are actual physical address and not a mailing address. In those cases, where it was provided, I used the contractor's name and address, assuming that once they get a copy of the NON, they would inquire with their client (the actual generator) about the issue. Let me know if you have questions or need additional information. Regards
